

## Bob-O-Meter - Bobcat Fund Progress Report

Late last summer, Immaculata was fortunate to be able to purchase a “Bobcat” all-purpose landscaping tractor. We got this invaluable piece of equipment (pre-owned but in excellent condition and with all of its attachments) at a good price. It will allow us to maintain and improve our 52 acre property – restore our trails, up-grade our Stations of the Cross walkway, grade and clear an area where we would like to construct a “Mary Garden” with inscribed memorial stones and many other such projects on the Retreat House grounds.

A fund was started to recoup the expenditure we made for this much needed piece of equipment. To date several thousand dollars have come in from generous benefactors to help defray our cost. We here post our official “Bob-o-Meter” indicating our level of progress in meeting the goal of recouping our payout for the “Bobcat”.

**We will update it regularly on our Website and feature its current level in every issue of our Newsletter until the goal is reached.**

**Any donations will be gratefully received. We thank you for any help you can give us.**
